- 20 **RHS and Three Counties Society statement for Floral Foam – 2025 Show Season.**

As part of our efforts to improve sustainability and to make environmentally-minded choices when planning our events, ALL plastic containing foam is banned at all shows. Many current floral foams on the market are non-biodegradable and use micro-plastics, and due to the nature of its use, it is very easy for these to get into the water supplies. We have taken the decision in consultation with exhibitors, competitors, venues, and site managers.

What are the alternatives?

There are several great floristry resources online proposing alternatives.

Some to consider include:

Chicken Wire or Metal Pins (kenzan)

Moss

Green Foliage

Tubes and Water

Newspaper

Marbles

Pebbles, Sand, Gravel, Clay

If you are using a degradable alternative to floral foam such as Agra-wool please contact the relevant show manager to confirm the product is suitable.

The RHS guide to Floral Foam Alternatives can be viewed at:

- 21 Plant material at all shows is subject to RHS Biosecurity Policy & Regulations which can be viewed at <https://rhsmalvern.co.uk/wp-content/uploads/2024/10/Shows-Biosecurity-policy-regulations-2025-v1-18.10.pdf>
